New Petunia Nana Compacta Pink Gem

This is the first of a charming new race of miniature Petunias. It forms a neat compact plant five to six inches high, literally smothered with deep pink blooms. A plant eight inches in diameter will carry as many as twenty-five to thirty blooms in flower at one time. Individual blooms are two inches in diameter. This miniature Petunia will be indispensable for borders, window boxes, pots, rock gardens and for bedding. Planted with a dwarf blue Ageratum, the effect is most charming.

New Giant Double Fringed Petunia Rose Pink and White

This Petunia is so attractive that we find it hard to give it an adequate description. Best described as Bright Rose-Pink with a large White Frill, giving the flowers the appearance of being huge balls of Pink and White lace. Many of the flowers are five and six inches in diameter. It comes quite true and very double from seed.

Tall Double Scabiosa Blue Cockade

An outstanding novelty which has been given an "Award of Merit" by the British Royal Horticultural Society. The flower which has so great a depth to be almost conical in shape, is of the purest deep azure blue color that can be found in any annual and is entirely without any suggestion of rose. An excellent cut flower.

Verbena Erecta Compacta Carmine Ball

A beautiful Erecta Compacta Verbena of similar form to Fireball. It forms a perfectly symmetrical plant about ten inches high and twelve inches across and is completely covered with bright Carmine flowers. The plants easily carry fifty to sixty trusses in bloom on the plant at one time.
